

CLEARVIEW™

Clearview diffusion screens are a transparent rear projection screen providing a low cost alternative to holographic/holo screens, with superior performance, definition and no critical angle of projection. A clear diffusion material, which still allows visibility through the screen displaying bright, sharp and vibrant images even in brightly-lit environments. Ideal for window applications, POS displays, exhibitions and advertising.

This unique transparent diffusion screen is ideal for any number of video/advertising applications where you still want the ability to see through the screen. A cost effective screen solution that requires no critical angle of projection, at a fraction of the cost of other holographic screen technologies.

FEATURES

- » Transmission - 97%
- » Peak Gain - 7.9
- » Horizontal Half Gain +/-22°
- » Vertical Half Gain +/-22°
- » Viewing Angle - 160°
- » Thickness - 3mm
- » Weight - 3.4kg per M²

BENEFITS

- » Diffusion Screen (Rigid Acrylic)
- » Sizes from 30" to 138"
- » Custom Sizes & Shapes Available
- » Transparent
- » Hand-Cast Material
- » Screen Samples Available
- » Screen Film also Available

APPLICATIONS

- » Window Displays
- » Advertising Screens
- » POS Display
- » Exhibition & Events
- » Museums
- » Shopping Centres
- » Public Attractions

ACCESSORIES

- » Cable Suspension System
- » Weighted Suspension System
- » Extrusion Bars
- » Aluminium Frames
- » Portable Display Stands
- » Soundpod
- » Interactive Touch Foil
