

**PRODISPLAY™**

INNOVATIVE DISPLAY SOLUTIONS

CUSTOM SHAPED AND CURVED SCREENS

# INTRODUCTION

Pro Display has developed a completely new market for its range of acrylic based diffusion screens and projection film material by adding a whole new dimension to the screen technologies.

Pro Display can cut their range of projection screen technologies to any shape, symbol, icon or logo to create the ultimate promotional - attention grabbing screen.

Custom shaped screens offer a great solution for all retail point of sale promotions, advertising campaigns and exhibition displays.

Pro Display's custom shaped screens can be suspended in mid-air, fitted within existing aperture walls or integrated with our POS Stands.

Our Standard shapes include a host of basic shapes, seasonal symbols and industry sector-specific icons while we can also cut various shapes on request, bespoke for the client's needs.

In addition to custom shaped screens, Pro Display also offers a range of moulded or curved screens for any number of applications e.g. wave effects and globes.

Curved screens offer the ideal opportunity for clients to think 'out of the box' creating a captivating effect for any promotion / campaign.

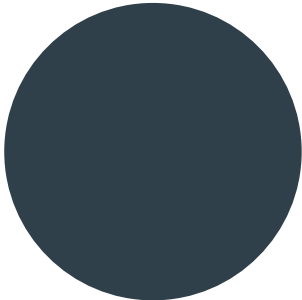

Open your mind to the possibilities...
