

# HIGH GAIN™

Pro Display's standard range of High Gain diffusion screens have been designed and developed for general rear projection applications, making them a cost effective solution for retail display (POS) and advertising.

This natural frosted extruded material performs well in high ambient light environments, making it suitable for window displays. A High brightness screen technology offering low contrast levels, ideal for general display, but not recommended for high end video applications. High Gain is our entry level rear projection screen providing a cost effective screen solution for a wide range of display applications.

## FEATURES

- » Transmission - 87%
- » Peak Gain - 7.4
- » Horizontal Half Gain - +/-26°
- » Vertical Half Gain - +/-20°
- » Viewing Angle 120°
- » Thickness - 3mm
- » Weight - 3.4kg per M<sup>2</sup>
- » Colour - White Frosted (Matt)

## BENEFITS

- » Diffusion Screen (Rigid Acrylic)
- » Extruded Plastic (Not Coated)
- » Sizes from 30" to 138"
- » Custom Sizes & Shapes Available
- » Hand-Cast Material
- » Screen Samples Available
- » Low Cost

## APPLICATIONS

- » Window Advertising System
- » Advertising Screens
- » POS Display
- » Exhibitions & Conferences
- » Presentation Screens
- » Information Displays
- » Reception Displays

## INSTALLATION KIT

- » Cable Suspension System
- » Weighted Suspension System
- » Extrusion Bars
- » Aluminium Frames
- » Portable Display Stands
- » Soundpod
- » Interactive Touch Foil
