

TITANIUM™

FRONT
PROJECTION

Pro Display's Titanium screen is a specially formulated rigid flat front projection screen providing high gain, high contrast and perfect colour reproduction in high ambient light conditions. This unique screen technology offers superior performance even in daylight, making it the preferred choice for most front projection applications. There is no need to turn down the lights, you will still achieve bright and vivid images. Unlimited display applications with a range of standard screen sizes up to 138". Panels can be multiplexed for large screen presentations (virtually seamless).

FEATURES

- » Peak Gain - 4
- » Viewing Angle 140°
- » Thickness - 3mm
- » Colour - Silver Reflective (Matt)
- » Weight - 3.4kg per M2

BENEFITS

- » Hand-Cast Acrylic Screen
